

Laparoscopic Scissors

Cost Effective Precision Without Reprocessing

Fairmont Medical's disposable Metzenbaum scissors deliver precise control and maximum sharpness throughout minimally invasive surgery, eliminating the cost and complexity of reprocessing and sterilisation.

- Balanced ergonomic handle designed for surgical control
- State-of-the-art insulated shaft and jaw housing provides superior diathermy current containment
- Curved blades enable delicate tissue cutting with the added capability of blunt dissection and coagulation
- Easy colour coding for quick, confident identification
- Single use, sterile, ready to use
- Quality Australian design
